HF Shunt Load Inductor Coil

SHUNT100 – Weatherproof, Adjustable HF Inductor

SHUNT-100

*My entry took first place among 15 contestants. Second and third were
Princeton University, Ohio, and South Coast Amateur Radio. There will be a formal
report on our web site soon. Since I will be writing it, I'll let you know it's
ready. There will be many other photos on web, and I'll attach them if you
request them.*

*Thanks again for getting me the parts so fast. I look forward to having the
shunt installed and working as well as such a short time.*

Regards,
Tom AA7WZ
