**WHAT TO ORDER:** The two right columns show which brackets work with vertical (e.g. ladder) & horizontal (e.g. railing) mounting, based on antenna type. (A) need ONE "required" bracket ("red"). (B) "optional" brackets ("green") only if you want them for your system. (C) "AMB-HMA-1" ONLY needed to mount the CLAMP200 horizontally (e.g. railing).
